

DRS Low Noise Oil-less Air Compressor

The low noise, oilless series of compressors are specially innovated to meet the most strict requirements for compressed air purity in dental and other various applications, to ensure their reliabilities and to be environmental friendly.

Applications :

Dental, Hospital, Pharmaceutical, Food and Beverages, Electronic Productions and Others.

1. DRS Series Air Compressor Pump

- High quality components. Reliable and easy maintenance.
- Low noise, high efficiency filter to reduce noise.
- Equipped with anti-vibration pad to achieve low vibration.
- High efficient motor with built-in over-current protector and over-heat protection inside.
- Air discharge tube is made of stainless steel.

2. Components Of Control System

- Reliable components : pressure switch, check valve, pressure gauge, solenoid, safety valve.
- Equipped with unloading solenoid to re-start the unit smoothly if power is cut off during operation.

3. Air Tank

- Inner surface is coated with epoxy to avoid rusting (optional).
- Made of high strength steel and designed in accordance with ASME standard.
- Equipped with safety valve to ensure safe operation.
- Powder coating to create exquisite appearance and hard finish for long lasting.

DRS.210.22L

Specifications

Model	Motor (Hp/Kw)	Working Pressure	Frequency (Hz)	Speed (Rpm)	Displacement (L/min)	Noise dB(A)	Tank Capacity (liter)	Dimension LxWxH (mm)	Weight (Kg)
DRS-210-22 (With Horizontal Tank)	1/0.75	7	50	1430	137	66	22	635x294x585	27
DRS-210-30 (With Vertical Tank)	1/0.75	7	50	1430	137	66	30	400x340x800	31
DRS-215-50 (With Vertical Tank)	1.5/1.1	8	50	1400	196	70	50	470x392x910	48
